

Cannabis[🌿] *Magazine*

**PRINTING
PRODUCTS**

FERIA DEL CÁÑAMO, S.L.

Cannabis **Magazine** has become a publication of reference in the Spanish hemp related editorial business.

It is undoubtedly the publication with more content dedicated to the growing of cannabis. It includes news and content about therapeutic uses, hemp history, hemp cosmetic, psychonautics and risk control, but also legal, medical, psychological and growing consultations.

The target audience is composed by men between 18 and 40 years old, being people especially interested in growing and not only in the consumption of cannabis.

Do you know a better way to promote your brand and your products than the most linked to the grower magazine?
